Discussion Items – If and how to address in FPM Position Paper

(We want to discuss the recommendations of the National Committee on Levee Safety, RiskMAP, NFIP, etc. and determine whether these policy issues need to be addressed in the Floodplain Management Position Paper. But before we do that, does anyone have proposed changes to the current paper)

Current Position paper – revisions and deletions

Levee issues (also a Flood Management Committee area of interest)

- PAL's
- Mapping behind levees
- Mandatory insurance purchase
- Levee Safety Committee report
- Levee inventories
- Levee-like structures

Risk MAP Issues

- Risk communication
- Production & Technical Services
- Map maintenance on a five-year cycle
- Any new issues raised by Thursday presentations?

NFIP reauthorization issues

- Son of TMAC (recommend support)
- eliminating subsidy for pre-FIRM structures
- adding wind insurance
- Adding categories for mandatory purchase of flood insurance
