Flood & Stormwater Management 2016

The Next Four Years: Is the Nation Going to Take Urban Flood Risk Seriously?

August 24, 2016

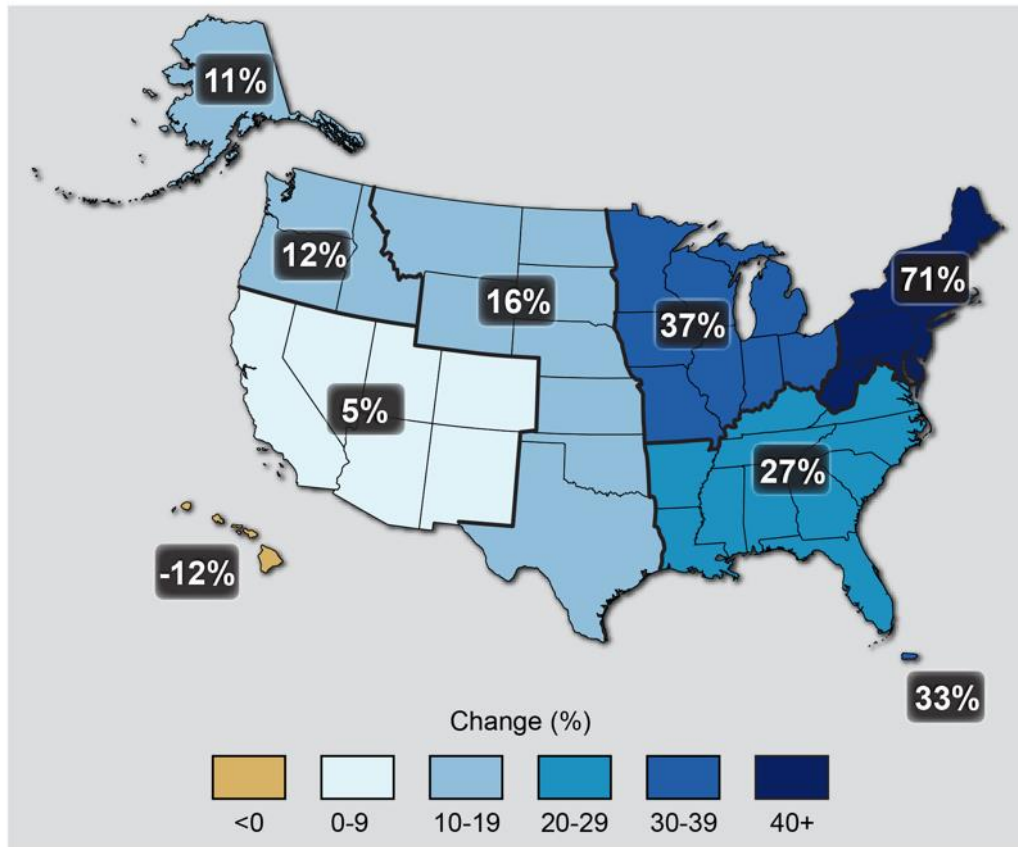

Roy Wright, Deputy Associate Administrator for Insurance and Mitigation

FEMA

More precipitation is falling in very heavy events

Observed Change in Very Heavy Precipitation

There is a clear national trend toward a greater amount of precipitation being concentrated in very heavy events, particularly in the Northeast and Midwest.

- U.S. National Climate Assessment

U.S. National Climate Assessment

Risks and impacts are evolving
